

10. Schedule 3 - Applicable to all other building work not covered by Schedules 1 or 2. Total estimated cost means an estimate accepted by the local authority of a reasonable cost that would be charged by a person in business to carry out the work shown or described in the application excluding VAT. In cases where the local authority consider an estimate to be unreasonable, or where no estimate or charge is supplied, the Partnership is authorised to treat the plans as if they had not been deposited.
11. The charges have been calculated on a set number of inspections being undertaken (except for enforcement). Should there be a need for additional inspections the Partnership may recover the additional costs. Prior notification will be given in such cases.
12. Electrical installations - if using an electrical installer who is a member of the self-certification 'Competent Persons Scheme' no application is required to the local authority. Notification of compliance will be given to the local authority by the scheme provider once the work has been registered by the installer.
13. Electrical installations (work involving electricians only - Schedule 2) - if using a registered electrician who can sign a BS7671 certificate you will need to submit a building regulations application to the local authority who will inspect the work at first fix stage.
14. Electrical installations - if using a registered electrician who can sign a BS7671 certificate and the work forms part of a building regulations application eg an extension, no additional charge for the electrical element is required.
15. Electrical installations - if the person carrying out electrical works is neither a member of the self-certification 'Competent Person Scheme' or a registered electrician then a building regulations application will be required - Schedule 2.
16. Where plans have been rejected no further plan charge is payable on resubmission for the same work.
17. Where plans for an identical scheme have previously been approved a discount on the plan charge will be applied.
18. Work to provide access and/or facilities for disabled people to existing dwellings and public buildings are exempt from charges. Disabled person in this context means a person who is within any of the descriptions of persons to whom Section 29 of the National Assistance Act, 1948 applies.
19. If you have any difficulty in working out the charge you need to pay, please contact us on 01347 822703 or email enquiries@nybcp.org.

 and Selby

Guidance Note on Building Regulation Charges

The Building (LA Charges) Regulations 2010 - Operative 1 April 2018

FOR WORKS THAT DON'T FIT INTO ONE CATEGORY / MULTIPLE WORKS, EMAIL DETAILS OF THE PROJECT TO GET THE MOST COST EFFECTIVE QUOTE.

1. Before you build, extend or convert your property you or your agent must advise your local authority either by submitting a Full Plans for approval or a Building Notice.
2. With a FULL PLANS submission the charge will either be paid in full on deposit, attracting a 5% discount, or be split between a plan charge on deposit and an inspection charge which is invoiced upon commencement of works, as indicated on the relevant charge table.
3. With a BUILDING NOTICE submission the full charge is payable on deposit.
4. In respect of REGULARISATION submissions for Unauthorised Works, commenced on or after 11 November 1985, a charge is payable on submission. The charge is equivalent to the Building Notice charge (exc VAT) plus 50%.
