MARCH 2018

ISO Accreditation Update

Last month NYBCP successfully transitioned to the new Quality Assurance Standard ISO 9001: 2015 under the watchful eye of Helen Winfield, our Quality Management Representative. The

standard is based on a number of quality management principles including a strong customer focus, motivation and implication of top management, the process approach and continual improvement. Using ISO 9001:2015 helps ensure that customers get consistent, good quality products and services.

ISO 9001: 2015 was the first major revision to the standard since 2000 and we passed with no non conformities. This is due to the hard work and commitment of everyone at NYBCP and the satisfactory conclusion of the audit is tantamount to that ethos. NYBCP believes that having an efficient Quality

Management System ultimately saves time, increases efficiency and improves customer services which was reflected recently in our Top Rated Customer Satisfaction Results".

Building Control Charge increase from 1 April 2018

From 1 April 2018 the Building Control charges will be subject to a 'below inflation increase'. As always there will be a one week period of grace upon which the new changes will be applied.

The Charges Sheet is attached for your assistance.
